CHART INDUSTRIES, INC. AND SUBSIDIARIES  
NOTES TO THE UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Dollars and shares in millions, except per share amounts)

**Note 1 — Basis of Preparation**

The following unaudited pro forma condensed consolidated financial statements are based upon the historical financial statements of Chart, adjusted to reflect the Divestiture. The following unaudited pro forma condensed consolidated financial statements of Chart should be read in conjunction with the related notes and with the historical consolidated financial statements of Chart and the related notes included in previous filings with the Securities and Exchange Commission.

To provide a better understanding of the impact of the Divestiture, the following unaudited pro forma consolidated financial information is presented to reflect how the Divestiture might have affected the historical financial statements had the transactions been consummated at an earlier date.

The unaudited pro forma condensed consolidated statements of operations that follow are presented as if the Divestiture had occurred on January 1, 2015, the beginning of the earliest period presented. The unaudited pro forma condensed consolidated balance sheet as of September 30, 2018 is presented as if the Divestiture had occurred on that date.

The unaudited pro forma condensed consolidated financial statements are provided for illustrative and informational purposes only and are not intended to reflect or be indicative of Chart's consolidated results of operations or financial position had the Divestiture occurred as of the dates presented and should not be taken as representation of Chart's future consolidated results of operations or financial condition. For example, these financial statements do not reflect any potential earnings or other impacts from the use of the proceeds from the Divestiture or cost reductions of previously allocated corporate costs and potential subsequent restructuring charges.

The historical consolidated financial information has been adjusted in the unaudited pro forma condensed consolidated financial statements to give effect to pro forma events that are (i) directly attributable to the Divestiture, (ii) factually supportable, and (iii) with respect to the statements of operations, expected to have a continuing impact on Chart's results.

The pro forma adjustments described below were based on management's assumptions and estimates, including assumptions relating to the consideration received.

**Note 2 — Unaudited Pro Forma Adjustments**

- (a) Represents the disposition of the CAIRE business assets and liabilities which had been reported as "held for sale" as of September 30, 2018.
- (b) Represents the impact of the \$133.5 in cash proceeds received from the Divestiture and an estimated increase to accrued income taxes of \$2.6.
- (c) Represents estimated transaction advisory costs of \$2.3, net of taxes.
- (d) Represents estimated employee-related incentive costs of \$1.2, net of taxes.
- (e) Reflects the impact to Chart's retained earnings from pro forma adjustments described above.
- (f) Represents the elimination of the operating results of the CAIRE business in the unaudited statements of operations for the CAIRE business for the periods presented.
- (g) Reflects costs associated with certain financial and information technology services to be provided on a transitional basis for up to twelve months commencing immediately following the Divestiture subject to the terms and conditions with the Transition Services Agreement. These costs will be reimbursed by the Buyer during the transition period and no longer exist after the transition period. Therefore, this adjustment removes the costs associated with these transition services from the historical financial statements.
- (h) Reflects the income tax effect of pro forma adjustments based on the estimated blended U.S. federal and state tax rate of 23% for the nine months ended September 30, 2018 and 36% for the years ended December 31, 2017, 2016 and 2015.
